## Product Development

Developing new products is strategically important, time critical, and cost-sensitive. From the first contact, economic review, raw materials sourcing, and trial planning; moving the product idea to market at a pace that ensures the project is not forgotten is the key challenge.

## Toll & Contract Manufacturing

**Toll manufacturing** and contract manufacturing are two relatively similar forms of supply chain management that are often misunderstood and confused. While both of these manufacturing options have distinct and clear

## Sierra Products Made to Order

Utilizing a Just-in-Time (JIT) manufacturing process eliminates the need to hold onto stock inventory. To implement a JIT process, clients depend on partners who can respond in a time-sensitive manner to orders. This inventory strategy helps to reduce wasted materials and employ an efficient production process. When working with trusted supply chain partners, JIT manufacturers can achieve a truly variable cost model.
